

Coronavirus relief grants for Hertfordshire charities

Applications are open for grants of up to **£2,000** for groups dealing with the emerging issues in the community caused by the threat of the Coronavirus (Covid-19) outbreak.

We are currently focusing on emergency funding with priority to organisations providing services and support to older and vulnerable people as well as those with low and insecure incomes. We also invite applications from groups applying to support people of all ages with mental health issues.

Coronavirus Disaster Relief Fund for Hertfordshire has been started by a generous individual and we will continue to build it up through our ongoing fundraising appeal.

Click the button below for the fund criteria and how to apply.
